Delivering a Bright Future

Hey boys and girls! Louie's house is full of electrical safety hazards, and Louie needs your help to find them. To make Louie's house safe, he needs you to find the **13** electrical safety hazards and circle them. Once you are finished, check the answer key on the back and see how well you did.

Louie's Tips for Safety

Never use hair dryers or radios in the bath or shower

Never pull a plug out by the cord

Never fly a kite near power lines

Never climb a tree near power lines

Do not play with broken outlets

Put only cords into outlets, NEVER fingers or keys

Never use devices with torn or taped electrical cords

Score Box

After checking your answers, add your total of correct hazards and see what category fits you.
